COACHING BIO/PHILOSOPHY

ABOUT ME

I grew up in Mississauga and played in the GTHL for all my minor hockey years.

I played 4 years of junior hockey and won the scoring title in the MHL & Fred Page Cup (Eastern Canada Championships).

I live in Fergus, with my wife Rachel, our 2-month-old son Max and our 5-year-old dog Wilson.

I am a diehard Seattle Seahawks fan and love to fish and golf in the summer.

This will be my 5th year coaching hockey and my 4th season with the WMHA, which includes my 2nd year as Head Coach with the U18AAA program.

My coaching philosophy centers on deploying systems that suit the strengths of our players, giving them the best chance to win while showcasing their talents. We pride ourselves on attention to detail, work ethic, and maintaining a fun, positive environment. Our goal is to create a rink atmosphere that players are excited to be part of every day. Practices are competitive and challenging, encouraging players to push themselves and each other to improve constantly.

We aim to help young elite hockey players sharpen their skills and habits, preparing them to transition seamlessly to the next level. With a staff that has experience playing at all levels of junior and university hockey, we provide first-hand insight into what it takes to succeed beyond minor hockey.

We enjoy working with focused, motivated players who want to grow both on and off the ice. Our approachable, young staff is always available to discuss any questions or goals players may have. Most importantly, we strive to build trusting relationships with our players—relationships we hope will last long beyond their years on our team.
