COACHING BIO

ABOUT ME

I am a resident of Waterloo and a high school math teacher.

I played my minor hockey with the Cambridge Hawks.

I have coached teams to the OFSAA Championships in Hockey, Volleyball and Soccer.

Lived in Australia for a year and managed to find a rink to play hockey while I was there!

I have over 25 years of experience coaching hockey schools, power skating, and skills development. Throughout my career, I've coached a wide range of sports, including hockey, volleyball, soccer, basketball, cross country, and ultimate frisbee. My coaching philosophy centers on pushing athletes to reach their full potential while placing them in situations where they can succeed. I believe teams thrive when every athlete understands their role and commits to pulling in the same direction. What I enjoy most about coaching is watching athletes grow—developing confidence, recognizing their strengths, and learning how to continue improving and succeeding both individually and as part of a team.
